

IoT Basics and Architecture Agenda

Objective : Learn fundamental building blocks of a typical IoT solution and key aspects of IoT architectures.

IoT Basics and architecture

IoT Applications and motivations

IoT Architecture and Challenges

IoT Multilayered Architecture with Cloud Edge and Fog

IoT vs Traditional IT Systems

IoT Data Lifecycle & Architectural Trade-offs

IoT Use Case : Anatomy of simple smart device

IoT Case Study : Smart Asset Tracking & Management System

IoT Case Study : Smart City- Singapore

Hands On : Communicating with MQTT Broker & Python
