

Internet of Things : Basics to Advanced - Agenda

www.RKSTech.in

Internet of Things Basics to Advanced

1. IoT Basics, Architecture & challenges

IoT Basics
Architecture
Components
Evolution Use
Cases

2. IoT Devices, Cloud & Edge Computing

IoT Sensors,
Actuators,
Devices,
Edge &
Cloud
Computing

3. IoT Networking Landscape

Communication
Protocols
and
Networks
Infrastructure
use in IoT

4. AWS IoT Core & Dynamo DB

Integrating
IoT Devices &
with Cloud

5. IoT Cloud Stream Processing

IoT Real time
stream
processing in
Cloud

6. IoT Cloud Batch Processing

IoT Batch
stream
processing in
Cloud

7. Connecting Dots

Connecting
end to end
components
with project.

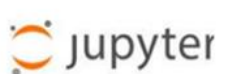

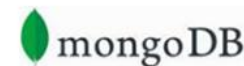

Theoretical
Concepts

Industry
relevant Use
Case

Hands on
demo

Assignments
& Quizzes

Project

and many more..
